Only the contractor’s bid was submitted to the tendering procedure, duly delivered to the contracting entity by the bid submission deadline. There was only one participant in the tendering procedure, therefore the evaluation was not carried out. It was determined that the submitted order did not contain an abnormally low bid price. The bid of the contractor as stated above met the requirements determined for the subject matter of the public contract in the tender documentation. On the basis of the above mentioned, the contracting entity decided to select the bid of the above contractor and awarded the public contract to this contractor.

Caution:

The public contract is awarded using a procedure outside a tendering process based on the exception according to Section 31 of Act No. 134/2016 Coll., on public procurement, as amended (hereinafter referred to as the “Act”). In compliance with the Act, it is not possible to raise objections to the decision on contractor selection.
